

PRODUCT NAME AND COMPANY IDENTIFIER

Product Name: **d-Mize I, II & III-RTU Formulations**
Product Use: Insecticide, Ovicide, Miticide for Spray and Structural Fumigation Applications
Company Name: American Cedar Technologies, 877-669-0482
Company Address: 612 Spring Cypress Road Spring Texas 77373
Last Revision: December 2013

Warning: This MSDS is created as a courtesy to the Shipping Industry and in no way should be used as a component reference or guide for the formulation of alternative solutions. Certain heat influenced formulation procedures that are used in the creation of this NEEM Oil product are proprietary. American Cedar Technologies Inc. assumes no responsibility for results or any damage incurred by attempts to reproduce **d-Mize** formulations.

HAZARDS IDENTIFICATION

Hazards Overview: CAUTION: May be harmful if swallowed. May cause mild eye irritation. KEEP OUT OF REACH OF CHILDREN.

Routes of Entry:

- Eye Contact:** – May cause mild irritation.
Skin: – No known hazard.
Ingestion: – May be harmful if swallowed.
Inhalation: – No known hazard.

Sensitization: Skin sensitization is not expected.

Medical Conditions Aggravated by Overexposure: None

COMPOSITION/INGREDIENTS INFORMATION IN STANDARD STATE @ 25°C

CAS Number	Content (w/w)	Chemical Name
8002-65-1	5% - 20%	Cold Pressed Neem Oil
10193-36-9	80% -100%	Orthosilicic Acid

All ingredients meet requirements of US National Organic Program.

Hazardous Components: None. This product should pose no health concerns when used in accordance with the directions for use provided by the manufacturer.

FIRST-AID MEASURES

General Advice: Have the product container or label with you when calling a poison control center, doctor, or going for treatment. For emergency information concerning this product, call the National Pesticides Information Center (NPIC) at 1-800-858-7378 seven days a week, 7:30 am to 3:30 pm Pacific Time (NPIC Web site: www.npic.orst.edu)

If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to by a poison control center or doctor. Do not give anything to an unconscious person.

If on skin: Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

If in eyes: First rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 15 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice.

If inhaled: If symptoms of irritation or light-headedness occur, provide fresh air immediately and rest. If symptoms persist, seek medical advice.

STABILITY AND REACTIVITY

Stability: Stable under normal conditions of use.

Incompatibility (Materials to Avoid): Avoid oxidizing agents.
Conditions to Avoid: Avoid light and moisture. Avoid low temperature. Avoid prolonged exposure to extreme heat. Avoid storage for longer than 12 hours if the product is mixed with water. Avoid electrostatic discharge.

Hazardous Reactions: No hazardous reaction if stored and handled as indicated.

Hazardous Decomposition or By-Products: No hazardous decomposition by-products if stored and handled as indicated.

Thermal Decomposition: Stable at ambient temperature. If product is heated above decomposition temperature, carbon monoxide may be released. Possible thermal decomposition products: Carbon monoxide, carbon dioxide, water.

PHYSICAL AND CHEMICAL PROPERTIES

Physical State:	Clear, non-viscous oily liquid (20°C)
Color:	Light yellow
Odor:	Mild berry fragrance
pH:	5.21 – 5.22
Specific Gravity:	0.826 – 0.827 g/ml (20°C)
Viscosity:	1.97 mPa*s
Boiling Point:	Not determined
Freezing Point:	Will not freeze
Solubility in Water:	Dispersible only Non Soluble Solution

FIRE-FIGHTING MEASURES

Flash Point: In Excess of 220° closed cup

Suitable Extinguishing Media: Alcohol-resistant foam, powder, carbon dioxide

Special Firefighting Procedures: Do not use direct water jet on burning material. Keep containers cool by spraying with water if exposed to fire. Avoid vapor inhalation. Wear self-contained breathing apparatus and protective clothing.

ACCIDENTAL RELEASE MEASURES

Steps For Spills: Ensure adequate ventilation. Collect spilled liquid in containers if possible for reuse or disposal. Transfer collected substance to properly labeled containers for reuse or disposal at an approved waste disposal facility. Absorb remaining liquid in paper, sand or inert absorbent.

Environmental Precautions: Do not discharge into soil, drains, surface waters or groundwater.

HANDLING AND STORAGE

Handling: Use the product strictly according to the directions for use provided by the manufacturer. Handle and open container with care. Avoid contact with eyes. Avoid inhalation of mists/vapors.

Storage: For optimal performance, store at room temperature between 59°F (15°C) and 86°F (30°C). Avoid storing at temperatures above 104°F (40°C) or below 20°F (-7°C). Keep away from light and moisture. Keep containers tightly sealed.

EXPOSURE CONTROL/PERSONAL PROTECTION

- Eye Protection:** Safety glasses or goggles recommended.
- Respiratory Protection:** Respiratory protection suitable for organic fumes and oils is recommended.
- Skin Protection:** Protective gloves. Selection of gloves must be based on the user's assessment of the workplace hazards.
- General Safety and Hygiene Measures:** Keep away from food and drink. Wash hands before breaks and at the end of work.

TOXICOLOGICAL INFORMATION

- Acute Oral:** LD50/rat/female: 3129 mg/kg
- Acute Dermal:** LD50/rat/male & female > 5050 mg/kg
- Acute Inhalation:** LD50 > 2.21 mg/L (4 h exposure; highest concentrate tested; no death)
- Acute Eye Irritation:** Mildly irritating
- Acute Skin Irritation:** Non-irritating
- Sensitization:** Not a sensitizer
- Non-acute information pertains to the active ingredient, cold pressed neem oil.
- Reproductive Toxicity:** No adverse effect if used according to the directions for use provided by the manufacturer
- Teratogenicity:** Not a known teratogen
- Mutagenicity:** Negative in mutagenicity assays
- Carcinogenicity:** NTP: Not Listed IARC: Not Listed

ECOLOGICAL INFORMATION

- Information on:** Neem Oil: Cold pressed
- Biodegradation:** Readily biodegradable in soil, water and on foliar surfaces.
- Ecotoxicity:** No concern for ecological hazards. No concern for non-target organisms.

DISPOSAL CONSIDERATIONS

Wastes resulting from the use of this product must be disposed of on site or at an approved waste disposal facility according to local, state and federal regulations. Do not contaminate water, food or feed by pesticide storage or disposal. Do not discharge into soil, drains, surface waters or groundwater. Open dumping is prohibited. Do not reuse container.

TRANSPORTATION INFORMATION

DOT/49CFR Description of goods: "Consumer Commodity" classes as ORM-D under 49 CFR 173.150

REGULATORY INFORMATION

CAUTION

Harmful if swallowed.
Causes moderate eye irritation.

ADDITIONAL INFORMATION

IMPORTANT: The information in this MSDS relates to this specific material: **d-Mize I,II,&III** Insecticide, Ovicide- Cold Pressed Neem Oil Based. It may not be valid for this material if used in combination with any other material or in any process. It is the user's responsibility to satisfy themselves as to the suitability and completeness of this information for their specific use and application.

Attempts have been made to eliminate or draw attention to the risks associated with the use of this product; however, it is impossible to eliminate all risks inherently associated with the use, handling and transport of this product. Damage to products, materials, treated surfaces, ineffectiveness or other unintended consequences may result because of factors such as environmental conditions, the presence of other materials, the manner of use or application, the use of the product in a manner inconsistent with its labeling, or other unknown reasons, all of which are beyond the control of American Cedar Technologies. All such risks shall be assumed by a user. Compliance with all applicable federal, state and local laws and regulations remains the responsibility of the user. This safety sheet cannot cover all possible situations that the user may experience. Each aspect of your operations should be examined to determine if additional precautions might be necessary. All health and safety information contained herein should be provided to your employees.
