DO NOT DILUTE

PRODUCT # 4002 and 4003

BEST YET Biting Insect and Tick Spray. The ultimate in personal relief from Fleas, Scorpions, Mosquito's, Flies, Ticks, Chiggers, No-See-Ums and Gnats. A light misting application of this Non Aqueous Quartz fluid spiked with a 10% Cedar Oil active will provide all day protection from biting insects. It will not sweat off like DEET products or other natural insect repellents. BEST YET can be used on children of all ages and animals of any kind. It can be applied directly to the skin or over clothing. It is a clear non staining solution that will leave the skin with a clean smooth and refreshed feeling not found with aerosol repellents. BEST YET can be used around the house to control those difficult insect invasions by Fleas, Scorpions, Roaches and Ants. A quick shot of this solution on the target insect or its nest will result in immediate death to the victim. Treatment of cupboards, pantries and food storage areas are recommended. Evaporation of the non water base treatment is prolonged providing extended treatment to the area. BEST YET is a effective coating for window screens and doorways and will provide a barrier of entry from various pests. Application with a trigger or tank sprayer will deliver superb insect control results. BEST YET is considered a Minimum Risk Pesticide by the EPA and is formulated with FDA food grade ingredients and Cedar Oil. It is Safe to Children and Pets. No applicators license required.

ACTIVE INGREDIENTS:
CEDAR OIL.....10%
